

Reduce Operating Costs with Ameren Illinois' Energy Efficiency Program

Illinois businesses, non-profit and public sector organizations can take advantage of cash incentives through Ameren Illinois to help offset project costs and move your energy efficiency projects forward. Energy efficiency projects completed through the program can improve comfort, reduce operating expenses, and boost your bottom line.

QFB Energy, an Ameren Illinois Program Ally provides free assistance in obtaining energy efficiency goals for your facilities. Our services are all inclusive from a no cost obligation energy efficiency audit to implementation of recommended efficiency projects. This is a no hassle process that will allow you to gather the information that you need to become more energy efficient.

Project ideas include:

- No-cost/low-cost energy efficiency improvements
- LED lighting upgrades
- Intelligent IIOT lighting
- Energy management systems
- Steam system improvements
- Solar installation
- ENERGY STAR equipment
- New heating and cooling equipment
- Ventilation controls
- Motor upgrades
- Unique projects for your facility

For more information on the Ameren Illinois Energy Efficiency Program and its available incentives and resources contact us at (888) 947-8460 or email info@qfbenergy.com.
